SUMMARY

Full Stack Web Developer with a Bachelor's degree in Media and Communications. With a love of creativity, I enjoy creating useful applications while considering the user's needs.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Node.js

Applications: GitHub, Visual Studio Code

Tools: Bootstrap, Materialize, jQuery, API's

Efficiency: Fast typing, knowledge of shortcuts

PROJECTS

Day-Weather Planner

<https://github.com/grahamelphick/holiday-weather-planner>
grahamelphick.github.io/holiday-weather-planner/

This application displays the relevant weather based on the user's geolocation as well as a variety of activity options by category.

This app uses: html, css, JavaScript, jQuery, API's, Materialize

Random Password Generator

<https://github.com/grahamelphick/week3-homework>
<https://grahamelphick.github.io/week3-homework/>

This application returns a randomly-generated password based on the user's selection criteria of character types.

This app uses: JavaScript

Work-Day Scheduler

<https://github.com/grahamelphick/work-day-scheduler>
<https://grahamelphick.github.io/work-day-scheduler/>

This application allows a user to enter events for each hour of a standard nine to five work day and saves said events to local storage.

This app uses: JavaScript, jQuery
